CLINICAL INTERPRETATION & RECOMMENDED NURSING ACTIONS

Mild Bronchiolitis / Distress (1 - 3 points)

Outpatient / Ward observation. Saline drops, fractionated feeding, monitor SpO2.

Moderate Respiratory Distress (4 - 7 points)

Inpatient admission. Humidified low-flow/high-flow O2, nebulized therapy, IV hydration.

Severe Imminent Failure (≥ 8 points)

PICU transfer, high-flow nasal cannula (HFNC) / non-invasive CPAP / endotracheal intubation.
